

01	BUSINESS OVERVIEW
What does your company do?	ENKO manufactures and assembles CCS2 EV chargers for the Indian market - covering the full power spectrum from AC commercial chargers to ultra-fast DC. We sell hardware to OEMs, CPOs, and fleet operators, with white-labelling available.
What products / services do you offer?	• ENKO Flow (AC) - 7.4kW, 11kW, 22kW · Rs.35K - Rs.65K • ENKO Storm (DC Fast) - 30kW, 60kW, 120kW · Rs.3L - Rs.7.5L • ENKO Blaze (DC Ultra) - 240kW+ • AMC - Annual Maintenance Contracts at 4% of unit price / year
How long have you been in business?	Approximately 2 years. Operational across Tamil Nadu, Kerala, and Andhra Pradesh.
What makes you different from competitors?	• Priced 31-36% below PM E-DRIVE government benchmark - at full margin • White-label capability that national players do not offer to SME / CPO buyers • South India field service and AMC - no national competitor below Hyderabad • Full CCS2 range (7.4kW AC to 240kW DC) under one roof • OCPP 2.0.1 across all units
02	TARGET AUDIENCE
Who is your ideal customer?	• OEMs - want white-labelled hardware under their own brand • CPOs / Charge Point Operators - want reliable hardware with AMC support • Fleet / Depot Operators - want multi-unit DC fast charger installations
What problems do they face?	• Overpriced imports with no local service or warranty support • National brands with no South India AMC presence • No single vendor covering full AC-DC range with white-label flexibility
How does ENKO solve these problems?	Hardware priced below government benchmark, South India-first field service, and white-label ready manufacturing - all from one vendor with a live AMC track record.
03	HOMEPAGE CONTENT
Main message / hero headline	Primary: Built for the distance. Supporting: India's EV charging infrastructure, built in India. Full range. Field-ready. Priced right.
What action should visitors take?	Primary CTA: WhatsApp us (B2B inquiry) Secondary CTA: Fill contact form / Request a quote

04	PRODUCTS & SERVICES		
Product		Type	Key Benefit
ENKO Flow 7		AC 7.4kW	Entry-level commercial AC
ENKO Flow 11		AC 11kW	Mid-range commercial AC
ENKO Flow 22		AC 22kW	High-power AC for fleet / parking
ENKO Storm 30		DC 30kW	Entry DC fast charging
ENKO Storm 60		DC 60kW	31% below govt benchmark
ENKO Storm 120		DC 120kW	36% below govt benchmark
ENKO Blaze 240		DC 240kW+	Highway / high-throughput depot
AMC		Maintenance	South India field teams
05	ABOUT US		
Company Story		ENKO was founded to solve a specific gap in the Indian EV charging market - quality CCS2 chargers with real local service, at prices Indian buyers can work with. We assemble a full-spectrum range and back every unit with South India-first AMC support, serving OEMs, CPOs, and fleet operators across Tamil Nadu, Kerala, and Andhra Pradesh.	
Directors		Samir Kamra & Ellappane Combined 50+ years of experience in the manufacturing segment, bringing deep domain expertise in production, quality, and industrial operations.	
Vision & Mission		Build India's EV charging backbone - starting South India, going national. Not as a network operator, but as the infrastructure layer every charging network runs on.	
06	TRUST BUILDERS		
Rs.1Cr+ Revenue · 100% bootstrapped		67 Units Shipped (52 AC · 15 DC)	9 × 120kW DC fast chargers at live sites
3 Segments Active buyers: OEM · CPO · Fleet		80%+ AMC renewal rate	2 Years Field data across 3 states
50+ Years Combined director experience in manufacturing		31-36% Below PM E-DRIVE govt benchmark	OCPP 2.0.1 Across all units
07	FAQs		

Do you offer white-labelling?	Yes. Full white-label support - hardware ships under your brand. Approximately 13% premium over standard pricing.
What does AMC include?	Field service, preventive maintenance, and technical support - 4% of unit selling price annually.
What protocol do your chargers use?	OCPP 2.0.1 - compatible with any OCPP-compliant CMS or network platform.
Do you deliver outside South India?	Currently South India-first. Pan-India expansion underway - contact us to discuss your location.
